Trash Removed From Rocky Mound Road

One of the Rocky Mound roads was in the news the other day.

I had had an eye on the gravel road from Rocky Mound to State Highway 4, watching a roadside collection of trash and garbage to see whether it was an old or growing deposit, in which latter case it would rate an editorial picture.

About the time I decided it was alive and growing Managing Editor George S. Smith hit the same trail and scooped my enterprise with a picture all his own. I followed up with an editorial suggesting that the city maintains a public dumping ground for which there is a nominal charge to county residents, but Hempstead county has no dump ground—therefore county folks are virtually encouraged to sabotage the beauty of our rural roads with unsightly trash piles.

I don't defend rural citizens who do this. A well-ordered farm ought to be able to take care of its trash on its own broad acres. Actually we have no way of knowing who built up that pile on the Rocky Mound-State 4 road—it might not be rural folks at all, but city people hell-bent on desecration.

Now I have news for you: I drove over this road Monday afternoon—and the trash and garbage are gone!

I telephoned County Judge Finis Odom this morning to inquire whether the county had cleaned up the trash after The Star's picture publication, but the judge was out of pocket and his office didn't know.

In the absence of any testimony to the contrary we'll give the county government credit for the cleanup—and a speedy job at that.

After printing our picture I suggested that if the county can't afford a dump ground for rural citizens an alternative would be to strike a deal with the City of Hope for the county to absorb part of the cost of maintaining the municipal dump ground, which is near Rocky Mound, and make it available to both city and rural citizens.

How about it, Judge?

All Around Town

Candidates from Hope receiving the Scottish Rite Degrees at the Arkansas Consistory in Little Rock Saturday were Claude Byrd, Horace Fuller, Ben Rice and Douglas Waters. Attending the reunion were Fred Fuller, Guy Grigg, Y.C. Coleman and Harry W. Shiver, 3rd. Degree, and Thurston Hulsey from Washington.

There will be a fish fry at Lonea Baptist Church at 6 p.m. The public is invited.

The Hempstead County Antique Collectors Club will meet at 7:30 p.m. at the Douglas Building Tuesday. The Camden Bottle Club will be guests.

Marine Pfc. David S. Beasley, son of Mrs. Mary F. Beasley of 902 S. Fulton, Hope has reported for duty at the Marine Corps Air Station in El Toro, Calif.

AA. Halbert (Slim) is in M.D. Anderson hospital in Houston. He is in Room E 514.

Miss your paper?

City Subscribers: If you fail to receive your Star please phone 777-3431 between 6 and 6:30 p.m.—Saturday before or by 5 p.m. and a carrier will deliver your paper.

UR assessments averaging 10% of market value

Urban Renewal property purchases show tax assessments averaging slightly more than 10 per cent of market value. Eleven purchases have been made by the Housing Authority.

There is nothing unusual about the above photo of the sun shrouded by pollution. Except that the photo was not taken in Pittsburg, Gary or Chicago. It was taken in Hope, Arkansas.

Gun-control advocates attempting to strengthen bill on handguns

WASHINGTON (AP) — Despite two lopsided setbacks, Senate advocates of stricter gun-control laws are trying again to strengthen a bill to take from the marketplace small, cheap handguns called "Saturday night specials."

Sen. Adlai Stevenson III, D-Ill., said he would offer an amendment today to require registration of all handguns and the licensing of owners, but its chances of adoption seemed slim.

A bill the Senate started debating Monday would ban the sale of snub-nosed, easily concealed handguns not suitable for sporting purposes.

Sen. Birch Bayh, D-Ind., the bill's chief sponsor, said it would take out of the marketplace the weapons most commonly used by criminals.

The Senate rejected 84 to 7 a substitute proposal by Sen. Philip A. Hart, D-Mich., to outlaw private possession of all kinds of handguns. Owners who

turned in their pistols or revolvers would be compensated at fair-market value by the government.

Then, the Senate defeated 78 to 11 an amendment by Sen. Edward M. Kennedy, D-Mass., to require registration of all firearms—rifles and shotguns as well as handguns—and state or federal licensing of all gun owners.

The votes were the first taken by the Senate on gun-control legislation since the attempted

assassination on May 15 of Alabama Gov. George C. Wallace during his campaign for the Democratic presidential nomination.

It was the wounding of Wallace, a foe of further federal firearm controls, that spurred the Senate Judiciary Committee into reporting out the bill sponsored by Bayh.

Bayh opposed both Hart's substitute measure and Kennedy's registration-licensing proposal.

Drug addict plays 'part' convincingly

NEW YORK (AP) — Since January, Charles Ross has successfully defended in four narcotics court cases, apparently undaunted by an addiction to heroin and unencumbered by a law degree.

Ross, 36, of Brooklyn, turned himself in Monday after U.S. Atty. Robert A. Morse charged him in a complaint with impersonating a lawyer and contempt of court. He could get five years in prison and a \$10,000 fine.

He has been a self-employed title examiner for the past 15 years and the federal government said his legal training was limited to a six-month correspondence course.

VP nominee to receive nod tonight

By PEGGY SIMPSON

WASHINGTON (AP) — Democrats are expected to nominate Sargent Shriver as their new vice-presidential candidate tonight, amid growing predictions that he can help unify the party for the uphill struggle against President Nixon.

Democratic National Committee members spoke warmly of Shriver, chosen by presidential candidate George McGovern as his new running-mate, as they prepared to make the selection official during a 7:30 p.m. meeting.

But before taking up its main business, the DNC this afternoon must settle credentials challenges to members from five states. The DNC's Credentials Committee ruled on four of the challenges Monday and will hear a challenge to the New York delegation this morning.

The Credentials Committee ruled against Ohio labor leader Frank King in the most sharply contested challenge and recommended that a black state senator, Morris Jackson, be seated

instead of King's choice, Rep. Wayne Hays. King took the position that seating Jackson would result in over-representation for blacks.

The other challenges involved members from Illinois, Virginia and Wisconsin. The Illinois case resulted in at least a temporary victory for Chicago Mayor Richard Daley, whose slate will be seated for the vote tonight. Challenger William Singer agreed to put off his battle to unseat the Daley group.

Once the credentials challenges are decided, the DNC plans to recess until tonight. Then, Senate Majority Leader Mike Mansfield is expected to nominate Shriver to replace Sen. Thomas Eagleton who resigned from the ticket in the furor following his disclosure of past psychiatric treatment.

Eagleton made it clear Monday he won't permit his name to be placed in nomination and doesn't know that anyone will try.

The revive-Eagleton sentiment surfaced soon after his withdrawal from the ticket last week but apparently has dissipated almost totally.

Committee OKs a bill limiting ordered busing

WASHINGTON (AP) — The House Education and Labor Committee today approved a bill that would sharply limit the power of the courts to order busing in school desegregation cases.

The bill, which would provide legislative standards to guide the courts in desegregation cases, is a modification of one proposed by President Nixon.

Before approving the bill by a 21-16 vote, the committee made two major changes. It added a provision designed to upgrade inner-city schools as an alternative to desegregating them, and it removed a provision that would have permitted the reopening of desegregation orders already in effect.

Nixon had asked for authority to concentrate funds in predominantly black inner-city schools but did not request specific funds to carry out the proposal. The committee author-

ized \$500 million a year for the purpose, with the money coming out of \$1 billion a year authorized in a recently passed bill designed to help schools desegregate.

The final vote came after two weeks of delaying tactics by opponents and with many amendments still to be considered. A time limit was set for the vote that prevented taking up the amendments.

The desegregation standards proposed in the bill would require the courts to try all other methods of achieving desegregation before turning to busing. Even then, busing could not go beyond the next closest school to an elementary school pupil's home and could go beyond that at higher grades only under strict limitations.

The bill's proponents hope to get it to the House floor next week.

Mattie Davis:

71-year-old faces possible murder charges

MIAMI (AP) — Seventy-one-year-old Mattie Davis faced possible murder charges today after killing a former mental patient who allegedly beat her and then smashed a bottle over her niece's head.

"I hate to do it," homicide Sgt. Arthur Beach Beck said Monday after arresting her in connection with the fatal shooting of Edward L. Dukes, 30, who officers said had a long police record.

Dukes died Monday less than 24 hours after Mrs. Davis told police she shot him with a .38-caliber revolver that she had purchased for self-protection a year ago and had never fired. "You ought to be ashamed," Mrs. Davis told Sgt. Beck as

she sat in a hospital awaiting treatment Sunday night while surgeons struggled to save Dukes' life. "You policemen should be ashamed for letting a man like Dukes out on the street. I hope he dies."

Sgt. Beck said he had once arrested Dukes on a murder charge in connection with a fatal shooting during a dice game. Dukes was adjudged criminally insane, treated in a state hospital for six months and then released.

Authorities were at odds Monday night over whether Mrs. Davis should be charged with murder.

Mrs. Davis was arrested on a charge of intent to commit murder Sunday after handing

her pistol to the first policeman who arrived at the shooting scene.

She said Dukes came to the small apartment house she manages, knocked her down on the floor and kicked her in the stomach several times.

She said when her niece, Bea Moore, 40, tried to intervene, Dukes smashed a bottle on her forehead and began beating Mrs. Moore.

Mrs. Davis told officers she got her revolver, chased Dukes into a room and fired through the door, hitting Dukes near the heart.

Sgt. Beck said Dukes had been arrested numerous times on aggravated assault, assault

and battery and other offenses. But Beck said it was Dukes' arrest for murder which apparently led to his feud with Mrs. Davis.

The detective said Dukes lived in Mrs. Davis' apartment building when police were seeking him on the murder charge and someone living in the building alerted police where he was staying.

Meanwhile, Criminal Court Judge Alfonso C. Sepe ordered Mrs. Davis freed in her own custody.

"It's obvious from the facts that this 71-year-old woman should not spend a day in jail awaiting trial at her age," Judge Sepe said.

Three area accidents are reported

Two Nashville men are in Branch Hospital with serious injuries following a one-car accident early Sunday morning near Washington.

The vehicle, driven by Chester Coulter of Nashville, was traveling east on State Highway 4 at a high rate of speed, according to State Trooper Wallace Martin, the investigating officer when the vehicle overturned on a curve.

Two passengers, Mickey Pryor and LeRoy Carrigan were injured in the crash and were taken to the hospital by Hempstead County Ambulance Service.

A Belmont, Miss. woman, Mrs. Dorothy Maxwell, and her three children, were injured Monday morning in a one-vehicle accident on Interstate-30 near the Emmet interchange.

The auto, driven by Mrs. Maxwell, was traveling east on I-30 on an inside lane. She attempted to pass a car and a truck, but the vehicle traveling behind the truck forced the Maxwell vehicle off

the road, where it overturned in the median. Trooper Martin was the investigation officer.

Mrs. Maxwell is in satisfactory condition at Branch Hospital, and her three children, Sandra, Wayne, and Robert are receiving treatment for minor injuries, a spokesman for the hospital said.

A four-vehicle accident was reported today by City Policemen Reed Clark and Bill Halton.

A vehicle driven by Wanda K. Jones of Hope ran a blinking red light at Third and Hazel Sts., according to the investigating officers. The Jones vehicle was struck in the right rear by a car driven by Bobby Sharpe of Smackover. The Jones car was then knocked into two parked vehicles—a pickup and truck owned by Tom's DX Station. Mrs. Jones was charged with failure to yield right-of-way.

China, Russia fueding again

MOSCOW (AP) — The Soviet Union and China are feuding publicly again over their border in Asia.

Publication in Peking of a new Chinese world atlas opened the latest round in the dispute that has its origins centuries ago, when Czar and emperors ruled the two countries.

"The authors of this geographical study," the Soviet government newspaper Izvestia said Monday night, "are trying to justify the territorial claims of the Chinese leadership to 1 1/2 million square kilometers of age-old Soviet territory." This equals 579,000 square miles.

The lengthy article was called "Geography, Maoist Style." In 1963 — as Chinese-Soviet relations rapidly disintegrated — China aired a vague claim to the same amount of land in Siberia and the Soviet Far East.

The Chinese argued that the lands had been taken by

treaties imposed unfairly on the weak imperial Chinese government in the 19th Century.

The Soviet claim is based on physical possession of the area as well as Russian exploration and settlement of the eastern reaches of Siberia in the early 17th Century and their formal annexation in 1649.

Russia ceded the territory back to China in 1890 and 1928. But Moscow contends these treaties were "unequal and unfair," the same charge China raises against the 19th Century Aygun and Peking Treaties under which Russia recovered the territory.

"The People's Republic of China is ... the only big state whose leadership picks territorial quarrels with its neighbors in the North and South, in the East and West," Izvestia said. "Those who put forward absurd demands to the USSR ... should recall the way the Soviet people regard such claims."

Go-slow warning is issued to Russians

WASHINGTON (AP) — A go-slow warning to the Soviets has been toned down and endorsed by the White House in an effort to appease senators on both sides of the U.S.-Soviet arms-limitation agreement.

The compromise may have improved chances for early Senate passage of the agreement limiting offensive nuclear arsenals, although initial reaction to the developments Monday was decidedly mixed.

The White House publicly endorsed Sen. Henry M. Jackson's amendment to the five-year SALT agreement after Jackson eliminated its strongest provision: a note to Russia that installing multiple war-

heads capable of destroying U.S. missile silos on its 313 largest intercontinental missiles could threaten American security and cause the United States to disown the interim SALT agreement.

Jackson consulted with the White House on the revised amendment, which retains language calling for U.S. negotiators to seek strategic equality in any future SALT treaty with the Soviet Union.

Sen. J.W. Fulbright, D-Ark., Foreign Relations Committee chairman, said he still isn't satisfied.

"I don't think any more of it than I did the other," Fulbright said.

New thrust by South Viets

SAIGON (AP) — Communist-led forces slashed into South Vietnamese militiamen 17 miles east of Saigon today near a highway leading to the resort town of Vung Tau.

Reports reaching Saigon at dusk said 30-40 South Vietnamese troops were killed and an equal number wounded.

There was no count on enemy losses.

By nightfall, the fighting had tapered off to sporadic contact, field reports said.

Meanwhile, Communist-led forces backed by tanks were reported to have threatened three towns in eastern Cambodia, raising fears of new thrusts across the border into the Mekong Delta and provinces north and west of Saigon.

Messages from Kompong Trabek, on the Saigon-Phnom Penh highway 65 miles west of the South Vietnamese capital, indicated the Cambodians were still fighting there on the west bank of the Prek Trabek River but had abandoned that part of the city lying on the east bank.

Sources in Phnom Penh said North Vietnamese tanks were sighted east of Kompong Trabek advancing toward the besieged provincial capital of Svay Rieng, 20 miles to the east and about five miles from the Vietnamese border.

Another column of North Vietnamese infantrymen and tanks was reported heading toward Prey Veng, a provincial

capital 25 miles northwest of Kompong Trabek.

U.S. bombers were supporting the Cambodians, and the U.S. Command claimed they knocked out 14 tanks Sunday and Monday. The Cambodian command said its air and ground forces destroyed another seven.

Meanwhile, U.S. B52 bombers made heavy strikes in the southern part of North Vietnam, aimed primarily at fuel supplies for the Quang Tri and Hue battlefields.

Thirty of the Stratofortresses carried out the raids around the port of Dong Hoi, 45 miles north of the demilitarized zone, saturating a wide area with more than 700 tons of bombs.

Another 20 B52s struck at North Vietnamese troop concentrations menacing the western flanks of Hue. These strikes were concentrated around Fire Base Bastogne and an outpost called Checkmate, 12 miles southwest of Hue, where there have been increasing North Vietnamese shellfire and infantry assaults.

Sharp fighting also was reported in the Que Son Valley, 25 miles south of Da Nang. The Saigon command said 30 North Vietnamese troops were killed, while government losses were two killed and 15 wounded.

Overcast skies cut into U.S. fighter-bomber strikes over both North and South Vietnam. The U.S. Command reported

that American fighter-bombers carried out 230 strikes across North Vietnam.

Blaylock lambastes Bumpers

LITTLE ROCK (AP) — Len Blaylock, Republican candidate for governor, said today that Gov. Dale Bumpers had failed to keep a pledge to improve health services in the state.

Blaylock listed several community hospitals which he said had been closed during Bumpers' administration. These hospitals were closed for lack of personnel or failure to meet federal standards under the Medicaid and Medicare program, he said.

Blaylock told a news conference that it was possible these problems would not have caused closing of the hospitals if Bumpers had had more meetings with the Department of Health, Education and Welfare.

He speculated that with a Republican administration in Washington and a Republican

administration in Arkansas, the hospitals would not have been closed and that in the future the federal-state problems could be ironed out.

Blaylock was then asked how he, as a Republican governor, could deal with a Democratic legislature. "My previous record shows that I have been able to work with the legislature," he said.

Weather

Experiment station report for 24 hours ending 7 a.m. Tuesday, High 96, Low 65.

Forecast

ARKANSAS: Warmer and partly cloudy tonight with scattered thundershowers mainly north portion. Wednesday fair and not as warm north and partly cloudy with widely scattered thundershowers south. Lows tonight mid 60s to low 70s. Highs Wednesday upper 80s to mid 90s.

M-Missing—T-Trace

—Frank King photo with Star Camera

LIONS CLUB SPEAKER—George Smith, managing editor of the Hope Star, was the guest speaker Monday at the local Lions Club. Smith described a "Day in Cummins Prison." Smith said he spent a day in the Arkansas prison farm last year as a "one-day wonder" to find out about a special program designed for youthful first-offenders.

He went into the prison as an offender, and only a selected few guards and officials knew he was actually a reporter gathering material for an article.

Nixon gains funds for his re-election

WASHINGTON (AP) — Campaign contributors tossed another \$2.45 million into President Nixon's re-election fund during June and July, newly filed public records show.

Key Republican campaign committees, complying with a new law, said Monday contributors ranged from wealthy past donors and government employees to thousands of small contributors.

Topping the list for the two-month period were three members of the Pew family of Philadelphia, who contributed \$36,000 in all. The family is associated with Sun Oil Co.

W. Clement Stone, a Chicago insurance executive who was the biggest single Nixon donor in 1968, sent along \$23,000. The same amount also came from Edward J. Hand of Buffalo, vice president of Ryder Systems, and his wife.

Not all the money came from large donors, however. The records said some \$1.1 million came in amounts of less than \$100 per contributor. The Finance Committee to Re-Elect the President said it received more than 55,000 individual donations during the two months.

The finance committee and

three key affiliates reported they raised about \$10 million prior to April 7, the effective date of the new federal campaign finance reporting law.

What she needs, money can't buy.

There are old people who need someone to talk to. Boys who need fathers. Guys in veterans' hospitals who need someone to visit them. Kids who need tutors.

Charged policeman released by judge

DETROIT (AP) — A murder charge filed against a white policeman in connection with shooting one of three black teen-agers at the height of the 1967 Detroit riot has been dropped.

Dismissal of the first-degree murder charge Monday against former Patrolman Robert N. Paille was the latest development in what has become known as the Algiers Motel Incident.

Detroit Recorder's Court Judge George T. Ryan dismissed the charge, ruling the most damaging evidence against Paille—his own confession—could not be used against him. Judge Ryan ruled it was made in an "atmosphere of coercion."

One of Paille's commanding officers earlier had said Paille told him that "I shot one of the men." But Lt. Gerald Hallmark said he had failed to advise Paille of his constitutional rights.

Monday's ruling was the latest in a series of events in which authorities have tried without success to prosecute Paille, Melvin Dismukes, a black private guard, and two other former Detroit policemen—Ronald Aguiar and David Senak—in connection with the killings.

All three Detroit policemen

were suspended in the investigation that ensued.

Emmet schedule

Gene M. Ross, superintendent of schools, announces that Emmet Public Schools will open Aug. 18th. First grade students must be six years of age on or before Oct. 1st. Birth certificates must be presented at the time of registration. A child must have a complete record of his immunizations as required by Arkansas law.

All students are required to be immunized against polio, diphtheria, tetanus, whooping cough, and (rubeola) measles. Registration will be held on Aug. 18 at 8:30 a.m. Buses will run on regular schedule and school will be dismissed at 11 a.m.

Books and locks will be sold to the high school students at this time only.

Regular classes will begin on Aug. 21.

A short schedule will be followed the first few weeks with classes dismissing at 1:20 p.m. each day. A teacher workshop is scheduled for teachers on August 17th.

'Too much love' suicide cause

MIAMI (AP) — A note found in a young blonde's car parked below the 30-story apartment house said, "I had to do it. I had no other choice. It's nobody's fault, only too much love."

The note was scrawled across a cigarette carton written partially in German and partially in English.

"It doesn't make much sense to commit suicide because of too much love," Homicide Sgt. Eugene McCracken said Monday after 23-year-old Susanne Schiefer plunged 21 floors to her death.

Police said the victim's husband, Dr. Sigbert Schiefer, a 30-year-old visiting Austrian chemist, "broke up completely" when informed of his wife's death.

McCracken said Schiefer later told investigators "he thought it was odd when she kissed him goodbye twice this morning."

Officers said the young couple was married in Venice last fall and came to Miami as newlyweds.

Dr. Schiefer told police his wife became desperately homesick for her parents so he arranged for them to come here for a visit. They were due to arrive in Miami in three days.

The young biochemist said his wife had become distraught about the cost of the trip.

When officers were unable to translate the note found in the victim's car, building employees summoned Klaus Vosbeck, a resident.

will punish me," Vosbeck started reading aloud from the note in the lobby. "I have chosen the easiest way for myself and also the hardest way for the others. Remember me ..."

Then a detective interrupted when he found Mrs. Schiefer's passport photo in her purse.

Vosbeck gasped, then stammered, "That can't be the girl who jumped!"

Shaken and pale, he then tearfully told officers that he worked with Dr. Schiefer and he and his wife were the Austrian couple's closest friends.

COOLING IT is a general idea during summer's high temperatures that can be accomplished in a lot of individual ways. A Philadelphia girl, for example, gets right down to basics and sits on an open hydrant.

WAC plan hopes to attract enlistees

WASHINGTON (AP) — To attract more enlistees, the Women's Army Corps plans to make its uniforms more stylish and the jobs more mind-challenging.

WAC Director Brig. Gen. Mildred C. Bailey said Monday it is part of the over-all plan to use more women in the military to smooth the way for an all-volunteer Army by next summer.

"By bringing in more women," she said, "the Army will be able to reduce the number of men required in noncombat jobs."

The 13,320-member Corps will be expanded to 15,900 by next June, and by June 1978 it will be 24,000, the largest since World War II when the Corps was nearly 100,000, said Gen. Bailey.

As one enticement, she said, the WAC green uniform will be fashioned to make it more

feminine, more comfortable and easier to keep neat. A pantsuit for work is also being considered, she said.

One style that won't be altered is the skirt length. It will stay the same—one inch above or one inch below the knee. "We feel this is a good reasonable skirt length for our uniforms," said the 52-year-old general.

But no more are WACs subjected to cloddish old-fashioned shoes and the World War II style cap. Now they can wear a modern patent-leather shoe and a black beret.

Almost any type of job except combat will be opened up to enlistees. The WACs, now mostly in clerical and administrative posts, will soon take their place alongside men as radar technicians, missile repairmen, electricians and heavy equipment operators.

The new opening to

women in the military comes on the heels of a report last month by a House armed services subcommittee which accused the Defense Department of "mere tokenism in the utilization of women in the armed services."

Grand opening, but market was closed for night

VANCOUVER, B.C. (AP) — There was a grand opening at the Karl Grohs Delicatessen and it netted \$272 worth of sales in one night.

But Grohs was home in bed. Selling goods at cut-rate prices were two unkempt burglars who smashed in the rear door, turned on all the lights at about 2:30 a.m., and offered such bargains as salami at \$1 a foot.

Then they closed up shop, taking the profits with them.

Grohs said that when he arrived at the store Saturday morning, he found blood spattered on the floor and ceiling and around the cash register and two white coats smeared with blood. He thought thieves had broken in, stolen the missing stock and had a fight.

It wasn't until later in the day that he got the full picture.

"Customers came in and asked how come you're staying open 24 hours a day," he said Monday.

"I said it's news to me. Then I checked the cash register and found they had rung up sales totaling \$272. I figure the goods they sold at virtually whatever the customers would pay came to \$300."

"Customers tell me they liked the bargains but weren't impressed with the tangle-haired, high-smelling clerks."

The presence of the blood in the store remained unexplained.

Noisy crowds create problems

BARCELONA, Spain (AP) — The United States Davis Cup tennis team turned its attention toward Romania today and the Challenge Round for the Cup, expecting a tough series from both the Romanian players and the Bucharest crowd.

The Americans defeated Spain 3-2 Monday in an emotion-packed series in Barcelona, where they said the noisy crowd was a problem and hurt their play.

U.S. team captain Dennis Ralston declined to predict how the Americans would fare

against the Romanians and Wimbledon finalist Ilie Nastase, but he said he expected trouble from the crowd.

"In Romania, the crowd is going to be like this (Barcelona) and the linesmen will be difficult as well," Ralston said after the 1972 Wimbledon champion, Stan Smith of Pasadena, Calif., clinched the best-of-five series by outlasting Spain's Juan Gisbert 11-9, 10-8, 6-4.

The No. 1 U.S. player beat the stubborn Gisbert despite trouble with his service and a series of errors.

Mortal side of baseball's immortals

By IRA BERKOW
NEA Sports Editor

NEW YORK—(NEA)—Early Wynn and Sandy Koufax, two of the most recent inductees into baseball's Hall of Fame, should feel as much at home in Cooperstown as they did on the pitching mound. They join the greatest, most immortal bunch of overrated bums that ever tripped over a base.

Baseball fans know that the right-handed Wynn is one of only 11 men to ever win 300 or more games. On the other hand—and sometimes you wonder if he wasn't pitching with the other hand—Wynn holds the major league record for most walks in a lifetime, 1,775, and most home runs given up in the American League, 335.

So he stumbles into the so-called hallowed halls alongside such an illustrious loser as Cy Young, who dropped more games, 315, than anyone in history. Also, no one ever gave up more career hits than that same Denton True (Cy) Young. He allowed 7,078 hits in his 23-season career. You ask why there were so many 300 hitters in the early years?

Young spread out his hits in both major leagues, and so was gracious enough to leave the field open to fellow Hall of Famers Walter Johnson and Grover Cleveland who hold the record for most hits allowed in a league for a career. Johnson's 4,920, tops the American, and Cleveland's 4,868 heads N. L.

Johnson is guilty of even greater malfeasance. He hit 204 batters, a major league lifetime record for barbarous pitching, is tied for the major league record for

Honus Wagner

most wild pitches lifetime, 156, and holds the record for most wild pitches in an inning, 4. Johnson also is owner of the forlorn record of having lost more games in one league than anyone, 279.

Other mournful marks by Hall of Famers include: most seasons, consecutive, leading major leagues in games lost, two, by Red Ruffing, and most walks in a season, 208 by Bob Feller in 1938.

As we tearfully leave the pitching records of these "baseball heroes" and con-

Babe Ruth and Jimmy Fox

tinue thumbing through Seymour Siwoff's official book of Baseball Records, we begin to mumble in our beards, "Say it ain't so, Joe, and Cy and Ty . . ."

Yes, even Ty Cobb. We discover that Cobb, as legend has it, was indeed an incomparable base runner. For no one in baseball history has been nailed stealing as many times in one season as Cobb was in 1915—38 times.

And the Babe, oh, the Babe. Fans got colds watching the Babe shatter records—such as most seasons leading the

major leagues in most strikeouts, four; his lifetime mark of 1,306 strikeouts lasted until a future Hall-of-Famer, the dubious Mickey Mantle, broke it with 1,710. But neither holds the record for having led one league in strikeouts for most consecutive seasons. Old Double X ("X" for wipe-out) Jimmy Fogg, and of course another "enshrinee" in the Hall of Fame, has it.

Hall members George Sisler and Cap Anson are tied with three others for most seasons (five) leading league in most errors at first base.

Bob Feller

(Sisler is also tied for most errors in a game, (four)).

At second, Eddie Collins holds the modern record for most errors in league, lifetime, 448. And Nap Lajoie is tied for most bobbles in one game, 5.

Pie Traynor, reputed to be one of the slickest of third basemen, has one of the sickest records: most seasons leading league in most errors, with five, and most lifetime errors for National League third basemen, with 324.

Honus Wagner is supposed

to rank with Babe Ruth and Ty Cobb. And he certainly does! He holds the record for most errors, career, in the National League, 676. Another Hall of Famer has cornered the market on the American League record for most seasons leading league in most errors—Luke Appling with five calamitous years.

It wasn't enough for Cobb to be a disaster on the base paths; opposing batters hit balls to this ill-starred outfielder with unholy glee. Cobb holds the record for most career outfield errors, 271. His play, apparently, was sometimes infectious. For erstwhile teammate and fellow Hall of Famer Harry Heilmann is tied for the mark of most errors by an outfielder in one inning, three.

Now, after all this sad but irrefutable evidence that our greatest of Hall of Famers were also monumental bumbler, one may ask about Koufax. Doesn't he hold many strikeout records?

Yes, he does, including the record for most consecutive strikeouts at bat, 12.

Catcher is the last bastion of hope for the icon-adoring fan. No records of nugatory note are yet owned by Hall of Fame catchers. But wait. There is Ivy Wingo. The legendary, notorious Ivy Wingo. He was a catcher (to use the term loosely) for 17 years with the Cardinals and Reds. Precedent tells us he may yet be voted in. For Wingo holds the catching records for most seasons leading league in most errors, most major league errors lifetime, and most career errors in one league.

Reds bomb Braves 9-1

CINCINNATI (AP) — Eddie Mathews is convinced "we have a better ball club than we've shown, and these guys can do it."

The new Atlanta Braves manager admitted he was nervous in his debut as a major league manager Monday night as the Cincinnati Reds bombed him 9-1 on national television.

"I guess it's a good way to break in as any," said the former Braves third baseman appointed to replace Lumen Harris, who was fired.

Franchise is named

SAN DIEGO (AP) — The new American Basketball Association franchise here will be called the San Diego Conquistadors and will wear the colors red, white and gold.

Leonard Bloom, owner of the team, said Monday the name was selected because it reflects San Diego's Spanish heritage. The National League baseball team here is the Padres.

Bloom's announcement to the San Diego Sportswriters-Sportscasters Association was greeted with groans and laughter. The groans came primarily from editors wondering how they are going to fit the name into headlines.

Bloom said he would announce today who his general manager and coach will be.

The team's emblem will be a profile drawing of the Portuguese explorer Cabrillo.

It was two former Atlanta teammates who did him in, Denis Menke and Joe Morgan who batted in eight of the Reds nine runs between them.

Morgan hit a three-run homer, his 14th of the season, and Menke got two more with a single in the six-run second inning for the Reds, and Mathews had to lift his first pitcher, Ron Reed—9-11.

In the only other National League game Monday night, the St. Louis Cardinals defeated the New York Mets 3-2 in 13 innings. Pittsburgh's afternoon game at Montreal was rained out.

In the American League,

Minnesota beat Texas 5-0, Baltimore whipped Milwaukee 5-2, Kansas City clipped Oakland 4-2 and Cleveland turned back Boston 6-2.

The Reds increased their lead to 5½ games with the Houston Astros off Monday.

Menke batted in three more runs with his sixth home run of the year in the sixth inning. The Braves managed to break Jim McGlothlin's shutout in the eighth inning on back-to-back errors by Darrel Chaney and Menke.

McGlothlin, who had not started since July 15, was inserted to replace the ailing Gary Nolan. Nolan complained

of muscle spasms.

Ted Sizemore's looping lead-off hit in the 13th inning bounced past diving left fielder Cleon Jones for an inside-the-park home run that gave the Cards their victory and dropped the Mets 8½ games back of front-running Pittsburgh in the East Division.

It came just one day after Sizemore had tried for an inside-the-park homer against Philadelphia only to be trapped in a rundown between home and third. "I couldn't believe it was happening again," he mused. This time, though, there was no close call. He virtually trotted across the plate.

Baseball drama at its best . . .

COOPERSTOWN, N.Y. (AP) — Yogi Berra batted leadoff and made a hit. He was followed in the lineup by a host of superstars.

The Hall of Fame induction ceremonies was baseball drama at its best.

The tearfully sincere Berra and humbly grateful Sandy Koufax were among eight great names out of baseball's past inducted Monday into the Hall amid Cooperstown's pastoral setting.

"My only regret is that my father and mother weren't here to see this moment," Berra said of his late parents while he

cried openly. "But I want to thank Baseball for what it's given me . . . I only hope that I can put something back."

The former New York Yankee catching great was the first speaker on the rostrum, bulging with famous names from the sport's past and present.

While thousands of fans, along with friends and family of the new inductees, crowded in front of the Hall of Fame library, Baseball Commissioner Bowie Kuhn introduced the newest of the immortalized:

Berra, Josh Gibson, Lefty Gomez, William Harridge, Koufax, Buck Leonard, Early Wynn and Ross Youngs. Gibson, Harridge and Youngs were honored posthumously.

Their speeches were of one tone—gratitude.

With the ending of the historic day's ceremonies, more than 9,000 fans attended the annual Hall of Fame game at nearby Doubleday Field.

Orioles outscore Brewers

By BRUCE LOWITT
Associated Press Sports Writer

Mike Cuellar had nothing, said Earl Weaver. But Weaver did have Mark Belanger—although by listening to the Baltimore shortstop, he may not have him for long.

What Belanger had Monday night was a hot bat at the right time. His tie-breaking, two-run double in the sixth inning provided the Orioles with the impetus they needed to turn back the Milwaukee Brewers.

Elsewhere in the American League, Minnesota shut out Texas 5-0, Cleveland beat Boston 6-2 and Kansas City defeated Oakland 4-2. On the abbreviated National League

schedule, St. Louis nipped the New York Mets 3-2 in 13 innings, Cincinnati clobbered Atlanta 9-1 and Pittsburgh's game at Montreal was rained out.

"Don't misquote me because I'm not asked to be traded," Belanger said after helping the staggering Orioles to only their third victory in the last 10 games, "but those thoughts have run through my mind and a trade is still a possibility."

"I feel I have to play regularly to do my job because I have my up and down streaks," said the nine-year veteran who alternates at shortstop with Bobby Grich. When Belanger is at short, you'll find Grich somewhere else around the infield.

Ollie Brown's run-scoring single in the first inning for Milwaukee and Brooks Robinson's homer in the second for Baltimore sent the teams into their sixth-inning tie before Jim Lonborg issued two walks and served up the pitch that Belanger drilled into the left-field corner. But Doyle Alexander had to come to Cuellar's rescue in the sixth after the Brewers had cut the margin to one run.

"Cuellar had nothing tonight," Weaver, the Orioles' manager said. "He had no fast ball to start with and they were jumping on his slow curve."

Jim Perry gave up just two hits—a pair of harmless fifth-inning singles—drove in a run and helped himself with a

strange unassisted double play to lead the Twins past the Rangers. Bob Darwin chipped in with a three-run homer.

Bobby will play mean tonight

REYKJAVIK, Iceland (AP) — Bobby Fischer "will be playing mean tonight," a friend said today as the American challenger and Soviet chess champion Boris Spassky prepared for their 12th game.

Fischer was crushed by Spassky in just 31 moves Sunday, trimming the American's lead in the 24-game match to 6½-4½. A win counts a full point, a draw a half.

It was Fischer's first defeat since the opening game July 12, and the friend added: "Bobby hates losing."

Fischer needs six more points to take the title and Spassky 7½ to retain it.

Spassky in the 11th game Sunday at last returned to championship form, particularly with a 14th move that the assembled grandmasters gaped

at. The move, a backward side-step with a knight, cornered Fischer's queen.

"It takes a champion to attack backward," said Danish grandmaster Bent Larsen. "The match really is a great match now."

Friends say Fischer's defeat is certain to tighten his play and make him more aggressive.

Fischer made his first approach in nearly two weeks to the Icelandic chess federation. He complained there was too much noise at his secluded seaside villa and he wanted something done about it because he was sleeping badly.

Officials of the federation said Fischer was hearing either the sea or the ventilation system. They're sending a man around to check the ventilation.

Unitas is still No. 1

BALTIMORE (AP) — The Baltimore Colts have a new owner and general manager, but not much has changed on the playing field. They're still contenders.

"We have a good team . . . with a damned good defense," says Coach Don McCafferty, the low-key head coach who doesn't waste words. "We're championship contenders."

The Colts, whose 131-54-5 record since 1958 is the best in the National Football League, have depth with a fine blend of experience and youth. A third Super Bowl appearance in five years is not impossible.

The entire season for the Colts may be riding on a single position, now that they've made their long-awaited move at quarterback.

John Unitas, 39, and starting his 17th season, is still No. 1. But with veteran Earl Morrall

traded, Unitas is backed by little-used Marty Domres, acquired from the San Diego Chargers; and untested Karl Douglas.

Unitas, who can still pick apart defenses but doesn't throw as well as in his prime, outlasted Colts' owner Carroll Rosenbloom.

After 19 years in Baltimore, Rosenbloom wound up with the Los Angeles franchise when Robert Irsay bought the Rams and traded them for the Colts.

Joe Thomas, Baltimore's new general manager, moved quickly after the swap was completed just prior to the opening of training camp. He signed nine players in one day, held firm against the contract renegotiation plans of All-Pro defensive end Bubba Smith, and traded guard John Williams who had played out his option.

Smith anchors one of the

NFL's best defensive units which includes just two players over 30, tackle Fred Miller and safety Jerry Logan.

The starting linebacking unit, with "Mad Dog" Mike Curtis flanked by Ray May and Ted Hendricks, may be the best in pro ball.

Rookies Jack Mildren and Bruce Laird back Logan and Rick Volk at safety, while second-year man Leonard Dunlap is pushing Rex Kern for a cornerback spot. Charlie Stukes, who signed after playing out his option, is at the other corner.

Joining Smith and Miller in a likely five-man rotating defensive line are Roy Hilton, Billy Newsome and Jim Bailey.

The Colts haven't had a losing season since 1956.

With luck, and a stable quarterback situation, a fifth championship is possible.

Solunar Tables

The schedule of Solunar Periods, as printed below, has been taken from Richard Alden Knight's SOLUNAR TABLES. Plan your days so that you will be fishing in good territory or hunting in good cover during these times, if you wish to find the best sport that each day has to offer.

UN's Waldheim to visit China soon

UNITED NATIONS, N.Y. (AP) — In the steps of Marco Polo and Richard Nixon, the secretary-general of the United Nations will set out Wednesday for China, his way smoothed by concession after concession to Peking's hard line on Taiwan.

The announcement of his journey, bare to the point of near nudity, surrounded it with the kind of mystery that has always given rise to so much curiosity about that immense land, at once the most populous and among the least accessible of countries.

What is known is that the government of the People's Republic of China has invited Kurt Waldheim for an official visit; that he and his wife with four members of his secretariat will spend five days in the country.

What is not known is which of China's 800 million people he will meet; whether he will get face-to-face exposure to the famous thoughts of Chairman Mao Tse-tung, the usually invisible head of the Chinese Communist party; and whether, like President Nixon, he will wind up endorsing the Five Principles of Peaceful Coexistence.

On Peking's firmest principle, that there is no "one China, one Taiwan" but only one China with Taiwan included, Waldheim's position is already well established.

It is, quite simply, Peking's position.

Waldheim established it soon after he became secretary-general at the beginning of this year. He confirmed the decision of his predecessor, U Thant, to deny U.N. press credentials to two correspondents of the Chinese Nationalist government's Central News Agency.

In fact, in discrediting the correspondents and ordering them out of the building in the hurried closing days of his 10 years as secretary-general, Thant had given in to growing pressure from the new Peking

delegation. In following Thant's lead Waldheim was fending off similar pressure.

Disagreements with the Soviet Union over matters of less moment to that government — Korea in one case and the Congo in the other — forced Trygve Lie out of the secretary-generalship in 1963 and clouded Dag Hammarskjold's last year in the job, down to the day he crashed and died in the African bush on a diplomatic mission in 1960.

Waldheim bears ultimate responsibility for all the steps that have been taken to disengage the United Nations from Taiwan because he is the chief administrative officer of the U.N. secretariat.

In the United Nations, gener-

ally, the Chinese have not turned out to be the bogeymen that they were painted in years gone by by their then worst enemies, the Americans.

In the old days, from afar, they issued demands that the United Nations be reformed from top to bottom and that the General Assembly's 1961 resolution declaring China an aggressor in Korea be rescinded.

Now that they are here, they do not mention those things. They take strong positions, then compromise.

In the Security Council, faced with a popular resolution that they object to, they usually do not obstruct it. They vote for it while recording reservations, they abstain from voting, or they resort to the even more aloof stance of not participating

in the vote.

Alone among the five permanent members of the council, they have never yet used the veto — though they once threatened to.

The Chinese, informants said, turned against it when they found out that Nationalist China had signed the treaty in Washington. They feared that adoption of the resolution would involve the council in recognition of Nationalist China as a state, because its signature could be held to make it a potential "state party" to the treaty.

With Waldheim's visit to Peking, he will have been to the capitals of all five permanent members of the Security Council. He was in Washington in January, Paris and London in April and Moscow in July.

Espionage trial for sergeant underway

TYNDALL AIR FORCE BASE, Fla. (AP) — An Air Force sergeant who hoped to swap top secret documents for American prisoners of war was so incapacitated by alcohol he believed his plan would have worked if he hadn't been caught, a psychiatrist says.

The prosecution in the espionage court-martial of M. Sgt. Walter Perkins was to call three Air Force psychiatrists today in rebuttal to the three defense medical witnesses who painted Perkins as a frightened, lonely drunk overcome by the pressures of his job.

Perkins has pleaded innocent by reason of temporary insanity.

Dr. Robert Sadoff, a psychiatrist who teaches both law and medicine at Temple and Pennsylvania universities, testified that Perkins believed he was going to trade five docu-

ments with the Russians for three American POWs in North Vietnam.

He said Perkins had met with a Soviet agent in Mexico City to arrange for the swap two months before his arrest.

When arrested last October at the nearby Panama City, Fla., airport, Perkins carried five documents concerning U.S. Air defense and intelligence.

He also had his Air Force cap, belt and name plate which Sadoff said were symbolic appeals for someone to help him with his alcoholism, signs for someone to stop him.

"He was feeling depressed," Sadoff said. "He believed he was sliding away because of alcohol. He said he had dreamed he could do something positive for his country ... he did not see that he could be doing something harmful."

The psychiatrist said Perkins,

37, still believed the Russians would have made the trade if he had not been arrested.

The military judge, Col. Joe Peck, who is hearing the case alone, said he would allow arguments on the sanity issue earlier than normal in the trial because of its critical nature.

Two other psychiatrists said Perkins told them of drinking with an increasing capacity and tolerance since his early teens, a process that accelerated when he entered the Air Force at age 17.

Named to Basketball Hall of Fame

LOS ANGELES (AP) — UCLA Coach John Wooden, two former coaches and 11 players have been elected to the United States Basketball Hall of Fame.

Besides Wooden, whose UCLA teams have won eight national championships, the Helms board elected Robert J. Calihan, now athletic director at University of Detroit after coaching there 21 years, and Stan Watts, athletic director at Brigham Young where he coached for 23 years.

—The United States produces between 50,000 and 80,000 tons of unshelled almonds annually.

Prediction comes true

CHERRY HILL, N. J. (AP) — "I wouldn't be surprised if somebody committed suicide or got killed," an assistant Philadelphia district attorney once said about a \$100,000 hashish smuggling case.

That prediction apparently came true Monday for Martin Allen Hess, 31, an interior decorator seemingly obsessed with the idea of criminal activity.

Hess was blown to bits as his Cadillac Eldorado exploded while he drove away from an apartment house in this residential suburb across the Delaware River from Philadelphia. What police believe was a time-delay bomb stewed parts of the vehicle 200 feet away in a blast

that could be heard for four miles.

A witness, Jean Sluzenski, said she saw Hess walk to the rear of his car and open the trunk. After closing it, "he got back in the car and about 10 seconds later 'vooom' and the car blew to pieces," she said.

Hess was the chief prosecution witness against a Philadelphia police lieutenant and three other men in a plot to smuggle the hashish into Philadelphia this year. The drug arrived from Afghanistan via Africa and New York in a truck.

Police said Hess was arrested after he and another man arrived at a parking garage to re-

—Rebecca Crouch photo with Star camera

The Cooperative Extension Service sponsors the Teen Volunteer Leader Program. Three other youth groups are being taught by teen leaders.

Fate of no-fault insurance rests in vote on bill

WASHINGTON (AP) — The fate of a bill to implement no-fault auto insurance nationwide hangs on a vote scheduled in the Senate by tonight.

Agreement was reached Monday to vote by 8 p.m. on a motion by Sen. Roman Hruska, R-Neb., to send the Commerce Committee bill to the Judiciary Committee, which would kill the chance of final action during this congressional session.

Sen. Marlow Cook, R-Ky., said he would vote for recommitment because "there are wild questions" about the constitutionality of several provisions which should be studied by the Judiciary Committee.

Opening the debate for supporters, Sen. Philip Hart, D-Mich., said the bill corrects a situation "where the people who suffer most are paid the least."

The present \$28-billion auto insurance industry covering nearly 100 million drivers, Hart said, is "topsy turvy."

Few if any senators publicly oppose the no-fault concept, but there are differences on the degree it may be applied. The administration favors no-fault.

Alexander defends project completion

PIGGOTT, Ark. (AP) — Rep. Bill Alexander, D-Ark., Saturday defended the completion of the Cache River-Bayou DeView drainage project saying it would benefit both sportsmen and advocates of flood control.

Speaking at the annual Greenway picnic near here, the congressman said the project, which has been opposed by environmentalists, "would rob sportsmen of rights in public lands that would otherwise be grabbed up by wealthy business interests." He added that instead of being used by sportsmen, the land would be covered by corporate projects.

Gov. Dale Bumpers has asked Army Engineers to halt work on the project in eastern Arkansas until pending litigation on it is settled and Congress appropriates funds to buy swampland that would be used to preserve fish and wildlife in the area.

Alexander said he was "not looking for a fight" and was making his statement in response to his constituents.

Alexander said when he ran for Congress in 1968 he made a "firm commitment" to work for flood control in Arkansas and it was his personal desire to do so in a joint venture with sportsmen.

For the sportsman, Alexander said, the project means that the federal government will buy at least 30,000 acres of land that will be for use by sportsmen. The state Game and Fish Commission would provide year-around management of these lands under an agreement with the Interior Department, he said.

Alexander said both houses of Congress had approved the project and had funded the flood-control part of it.

Complaints received by Henley

LITTLE ROCK (AP) — U. S. District Court Judge J. Smith Henley said Monday he had received complaints from prison inmates about the conduct and attitude of prison personnel in connection with "writ-writing activities."

Henley made the observation in a memorandum and order denying a Cummins inmate's petition for a writ of habeas corpus.

Henley said the inmate, Roger D. Mosby, had complained that he had been harassed by prison personnel because of his frequent petitions to the court.

Henley said he recently told state prison officials "that there must be retaliation upon inmates or threats of retaliation on account of their writ-writing activities" because of the complaints he had received.

Opening lead—♦ 4				

Betsy Wolff is one of our top women bridge players but like most smart wives she likes to let her husband play no-trump contracts whenever she gets a chance to let him operate.

Her jump to three no-trump with the North hand would not be approved procedure in match points but at IMPs it has a lot to commend it including the result.

Husband Bobby, who with Jim Jacoby, constitutes the anchor pair of the World's champion Dallas Aces, didn't have any chance to show great skill at three no-trump.

He simply won the diamond lead and proceeded to rattle off his eight tricks in the black suits to chalk up the no-trump game.

The bidding was more scientific at the other table. North used Stayman and raised South to four spades after South bid two spades in response to the Stayman two clubs.

Four spades is a mighty good contract. It can only be beaten by a 4-1 or 5-0 break in trumps but suits break that way about 32 per cent of the time and this was one of those times. There was no way for South to make more than nine tricks at spades and the net profit of 700 points was worth 12 IMPs to the victorious mixed team.

The bidding has been:

West	North	East	South
1♥	Dble	Pass	2♥
Pass	3♣	Pass	?

You, South, hold:

♠ 8 7 4 3 ♥ 2 ♦ A K 9 4 3 ♣ 7 6 2

What do you do now?

A—This is easy. Bid three diamonds.

TODAY'S QUESTION

Your partner continues to three spades. What do you do now?

Answer tomorrow

Yearbook interested in our environment

How to improve our environment with plants is the subject of the 1972 Yearbook of Agriculture, "Landscape for Living."

In a foreword, Secretary of Agriculture Earl L. Butz calls the 416-page volume "a handbook with something for everyone on improving the quality of life in urban and suburban America, and in the country side."

"Landscape for Living" includes background information and how-to-do-it advice to home gardeners, and even is something of a textbook on the biology of plants, Secretary Butz notes.

The Secretary observes that an estimated 80 million people garden as a hobby in the United States and cites a survey showing the importance of green grass and trees to people's happiness.

"Whether we live in urban areas or in the country, there's a touch of the farmer in most of us—a love for growing things," Butz says.

Calvin J. Caldwell, county extension agent, says that chapters on practical gardening cover shrubs, perennials, annuals, lawns, vegetables, fruits, and herbs. Other how-to-do-it type articles discuss plant propagation, greenhouses, fertilizing, mulching, and composting.

The book is illustrated with over 175 black and white photos and many drawings, and opens with 32 pages of color. It has 62 chapters.

Each member of congress has a limited number of copies of the Yearbook for free distribution to constituents. In addition, the book may be purchased for \$3.50 a copy from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Residents comes to rescue

NASHVILLE, Tenn. (AP) — Nashvillians have donated more than \$800 to replace the \$225 taken from a woman as she slept outside her husband's hospital room where he is confined with a terminal illness.

"I just don't know what to say," she said tearfully after being told of the donations.

Mrs. Alfred Warren, who lives in Shelbyville south of Nashville, fell asleep early Saturday while keeping a vigil at St. Thomas Hospital where her husband is in the coronary care unit.

She awakened to find that someone had taken her last \$225 and her husband's watch. The Warrens have five dependent children, a stack of unpaid bills and no groceries at home.

Monopoly is charged in tennis suit

CLEVELAND, Ohio (AP) — U.S. District Court in Cleveland has been asked to rule that World Championship Tennis (WCT) is a monopoly and to eliminate its contracts with top professional players.

John L. March, owner of the suburban Shaker Racquet Club, also asked in the suit for triple the losses he has suffered as a tennis promoter and for attorney fees, but he did not specify the amount.

The suit, filed Monday, charges the WCT, owned by Texas sports promoter Lamar Hunt, has restrained fair trade by barring 90 per cent of the world's top tennis players from other tournaments.

BIG SWINGER isn't satisfied with one swing. he has to monopolize the whole set. A real expert in Yorklyn, Del., shows how it's done.

Why Not Join The Band Of Satisfied Classified Ad Users 777-3431

All Want Ads are payable in advance but will be accepted over the telephone and accommodation accounts allowed with the understanding the account is payable when statement is rendered.

WORLD ALMANAC

FACTS

The Rough Riders, a volunteer army regiment of ranchers, cowboys, Indians and college students, were highly publicized in the Spanish-American War. The World Almanac says. Though the unit was forced to embark for Cuba without horses, it helped capture San Juan Hill. This forced the Spanish fleet to sail to sea, where it was defeated. Copyright © 1972. QUICK QUIZ

- Q—What is said to be the most perfect painting of a human hand?
- A—Mona Lisa's right hand, by Leonardo da Vinci.
- Q—What is the toughest of gems?
- A—Most resistant to breakage is jade.
- Q—What was the first feature-length animated color cartoon movie?
- A—Walt Disney's "Snow White and the Seven Dwarfs," 1937.

Push for 'no-fault' insurance

SAN FRANCISCO (AP) — Legal experts from the 50 states have tentatively agreed to push for adoption back home of a strong "no-fault" auto insurance program.

The proposed law that won all but final approval by a 32-14 vote at their conference here Monday would guarantee payment to all auto accident victims of all "reasonable" medical expenses, whoever may have been at fault.

Ten states have legislated various versions of "no-fault" auto insurance, but the proposed bill that is coming out of a week-long session of the National Conference of Commissioners on Uniform State Laws would be even more comprehensive than the Massachusetts and Florida laws, the toughest in the nation.

"The idea is to make sure people are compensated," said Lindsey Cowen, dean of the University of Georgia Law School and chairman of the committee that drafted the model law.

The annual conference has brought together commissioners from every state to complete the drafting of bills for adoption by their legislatures.

The auto proposal was fought over for four days before it was given tentative approval. The drive here for a "no-fault" law parallels one in the U.S. Senate this week, and Washington proponents sent aides here to coordinate the two moves.

There would be no top on the amount an auto victim could recover from his insurance company, while none of the 10 states with some form of "no-fault" coverage provides more than \$10,000.

Trial lawyers generally are opposed to swinging away from the present system of using the courts to settle accident claims. The big insurance firms are divided, with some supporting "no-fault" and others opposed.

Government estimates are that only 40 cents of every \$1 in auto insurance premiums are returned to accident victims.

There would be no suits except to recover for damage to property other than automobiles, for "pain and suffering," and injury causing more than six months of total disability and for being out of work longer than six months.

All other legislated plans

Halo satellite for moon communications is idea of scientist

GREENBELT, Md. (AP) — A scientist at the Goddard Space Flight Center says he has discovered a way for astronauts to remain in continuous communication with earth while landing on the far side of the moon.

The key to the technique would be a communications satellite orbiting an invisible point 40,000 miles beyond the moon, says Robert W. Farquhar, the engineer-mathematician who developed the idea.

By orbiting that point, rather than the moon itself, the satellite could keep watch on any desired location on the back side of the moon while maintaining constant communication with earth, Farquhar says.

From earth, the satellite would appear to describe a sort of halo around the moon, prompting Farquhar to label it the halo satellite.

Lunar scientists are eager to discover whether the far side of the moon has the same general composition as the front side. They are particularly curious about the absence of seas, or dry seas, which are so numerous on the front side.

However, space officials have been reluctant to attempt a far-side landing without some means of continuous communication between earth and the crew making the landing.

Farquhar believes the halo satellite might prove useful for more than Apollo-like moon landings.

A NASA committee has proposed development of a lunar-

open the courtroom door when medical bills go beyond \$1,000, and some of 10 states permit suits for even less. But the proposed law receiving clearance here would guarantee compensation from the insurance company for all medical bills — while barring suits for any of them.

Besides Massachusetts and Florida, the states with some form of "no-fault" are Connecticut, Delaware, New Jersey, Maryland, Minnesota, Oregon, South Dakota, and Illinois, where the law has been declared invalid by state courts.

BOND SET AT \$25,000 FOR EL DORADO MAN

EL DORADO, Ark. (AP) — U. S. Magistrate J. S. Brooks set bond at \$25,000 Monday for Ted R. Wells, 29, of El Dorado, who has been charged in connection with the \$21,000 robbery last Thursday of the Pineland State Bank in Texas.

Brooks said the next step would be to begin "removal proceedings."

McGovern plans to blast Nixon's record

WASHINGTON (AP) — With his party poised to nominate Sargent Shriver as his new running-mate, Democratic presidential candidate George McGovern flies to Miami today to attack President Nixon's labor record and accept another union endorsement.

McGovern dug into the Republican economic record in a speech to the AFL-CIO Amalgamated Clothing Workers union Monday, breaking a tradition of launching Democratic presidential campaigns with a pro-labor speech on Labor Day in Detroit.

But there is another difference this year. Those recent Democratic campaigns had the endorsement and financial backing of the executive board of the AFL-CIO which this year has decided to endorse no presidential candidate.

Monday, McGovern got a \$25,000 campaign check as a first installment from the president of the 360,000-member Clothing Workers union following a speech in which he faulted the Nixon record on unemployment, inflation, public-serv-

ATTENDS SEMINAR—Dr. Phillip L. Manus, Hope chiropractor, attended a Acupuncture Seminar last weekend in Kansas City, Mo. At the seminar Dr. Manus learned the theories and principles behind acupuncture and acupressure, the finger pressure system of acupuncture. The application of finger pressure to specific points on the body is one of several therapies which may be used in addition to chiropractic adjustments for speeding up results or helping difficult cases. Dr. Manus attended lectures and demonstrations presented by practitioners including special guest speaker Dr. Tao Hsi-Yu of Taipei, Taiwan. Dr. Tao is currently a lifetime director and member of the Board of Control of the Chinese Acupuncture Society in Taipei, where he also teaches acupuncture. Accompanying Dr. Manus was his wife, Patti, who is also his receptionist and therapist. The seminar was sponsored by Clinic Masters, a professional organization which brings the latest in chiropractic research and procedure to its member doctors.

ice jobs, international trade, minimum wage and the continuing war in Vietnam.

He worked on the speech he'll give in Miami Beach today to the 550,000-member Amalgamated Meat Cutters union, which earlier endorsed him, and on plans to meet workers on a swing through New England later in the week.

Meanwhile, some 20 of the nation's leading black union leaders announced they'll meet with the candidate in Miami Beach Wednesday to plan a coalition to counter the anti-McGovern forces led by AFL-CIO President George Meany.

An organizer of the meeting said it will be attended by black union leaders who "feel that the re-election of Richard Nixon will almost certainly result in further development of national policies designed to slow or reverse civil-rights progress and to undermine federal provisions which insure decent and equitable treatment of American workers."

About three million of the 18 million members of organized

labor are black.

As McGovern concentrated on labor, the Democratic National Committee convened one of the most unusual meetings in its history and prepared to give former Peace Corps director Shriver the vice-presidential nomination resigned by Sen. Thomas F. Eagleton, D-Mo.

Boiling it down

By HAL BOYLE

NEW YORK (AP) — Things that make life worth living:

The mild elation that comes from making the last payment on an instalment plan—so you're free to go into more debt buying something else.

Finding in the back of a closet a comfortable pair of old shoes you thought your wife had thrown away.

Being thanked by an elderly baby-sitter for walking her home.

The joyous sounds of carols sung outside your house on Christmas Eve by a band of roving singers while snowflakes are feathering down.

Hearing the Irish voice of tenor John McCormack rise sweet and clear as a convent bell on a summer evening from a scratchy old recording of "Somewhere a Voice Is Calling."

Sitting on a park bench at 17 on a starlit night with the first really serious date of your life and wondering just what would be the right move to make next—if any.

Getting a job as counterwoman in the neighborhood drugstore at 16 and learnedly advising all the creaking old people who came in just what would be the best patent medicine to cure their rheumatism.

Finding at 12 your muscles were so good you could let

Reacting to persistent rumors, Eagleton said that under no circumstances would he permit his name to be placed in nomination again. He quit the ticket as a result of public discussion over his disclosure that he had undergone shock treatment for depression in the 1960s.

younger kids hit you in your taut stomach with all their might and it didn't hurt. Well, not too much anyway, after you got your breath back.

Reading a poem by Emily Dickinson for the first time, and having the half-dazed feeling that lightning had struck you and the whole world was on fire with a new illumination.

War victim: 9-year-old Vietnamese recovering from burns

SAIGON (AP) — Two months after napalm dropped by South Vietnamese planes sent 9-year-old Phan Thi Kim Phuc screaming in pain and panic down a highway northwest of Saigon, she has nearly recovered from her burns.

At the Barsky Center, a hospital for plastic and reconstructive surgery in Saigon, Vietnamese surgeons trained in the United States planted a patchwork of stamp-sized grafts over her burned back, neck and arms.

She'll probably be home for school in the fall; not so with many of her friends.

More than 50 children and adults are at the Barsky Center with faces and bodies scarred by war, accidents, disease and congenital defects.

There are burned ones, victims of war and home mishaps; people disfigured by mines and shell fragments, babies lying in cribs recovering from operations for cleft palates, a common birth defect in Vietnam; and the victims of noma, a still-unexplained disease which swiftly eats away facial tissue and bones.

Compared to the other patients, Kim Phuc is lucky. Her fame as "the little girl in the newspaper" has caused some consternation among the doctors and nurses.

"I don't understand why she gets so much attention," says a Vietnamese plastic surgeon. "She is among the least seriously injured here and she will be going home soon."

Kim Phuc has a home to go to — a modest house among fruit trees in the town of Trang Bang, 25 miles northwest of Saigon. Unlike her, many Barsky patients have only each other; their families are dead or lose touch as the patients' time in the hospital stretches out. Some patients stay for a year or more while the surgeons rebuild them.

Lam Luc, a 2-year-old, lost the lower part of his face to a shell fragment at An Loc. His father was killed. The doctors are rebuilding his mouth with plates and grafts, and he can eat again.

There is Nhan, a sad-faced, 6-year-old who sits on his bed constricted by a network of

bandages securing a "tube" of skin from his arm to his face. Nhan is a noma victim. Doctors halted the spread of the disease and now are trying to encourage the facial skin to grow. Nhan is an orphan. A brother who used to visit him doesn't come any more, and Nhan doesn't know where he is.

There is Son Si Men, a Cambodian boy who came more than a year ago with severe napalm burns. Several times he nearly died. He doesn't remember where his village is or what became of his family. But now, after months of delicate skin grafts, he puts on his hat and leaves for home, looking much older than 14. His eyes fill with tears as he says goodbye. A friend, he is told, will try to find his family.

There are the others: A soldier badly burned when his armored personnel carrier hit a mine in Laos over a year ago. A beautiful peasant girl blinded and disfigured by a booby trap while working in a field. An old woman, burned, sitting in a wheelchair in a corner, alone and shy. A dozen children recuperating from cleft palate operations, their arms in braces so they won't tear out the stitches.

The Barsky Center began in a converted apartment in 1968 and moved into the present

clinic at Cho Ray Hospital in 1969. It has treated more than 3,000 persons in four years, and the patients come now at the rate of 100 a month.

When first established, Barsky was staffed almost completely by American and other Western doctors and nurses. An American administrator, Joyce Horn of Riverdale, Ill., remains, but most of the operations are done by Vietnamese doctors and nurses. There are three Vietnamese plastic surgeons, another in training, and more than 30 nurses.

The center is sponsored by the New York-based Children's Medical Relief International, which is headed by the noted American plastic surgeon, Dr. Arthur J. Barsky. Most of its financial support comes from the U.S. Agency for International development, but its funds have been cut back like other foreign programs. Children's Medical Relief has begun a major money-raising effort to get private funds for the hospital.

The photograph of Kim Phuc fleeing down the highway moved Sen. William Proxmire, D-Wis., to recommend \$550,000 for Vietnam's burn victims, to be administered by Children's Medical Relief. The proposal is part of the current foreign aid bill.

Boy remembers old 'Fat Jaws'

JACKSONVILLE, Fla. (AP) — Lying in his hospital bed, young David Wayne Abbott says he'll always remember "Fat Jaws," an alligator which grabbed the boy in its toothy mouth as he played in a lake.

"All he can remember are those big jaws closing down on him," said the 6-year-old boy's mother, Mrs. Fred Abbott of Jacksonville. "He won't even use the word alligator. He calls it 'Fat Jaws.'"

And he was happy to hear that Florida Game and Fresh Water Fish Commission agents removed an alligator from the small lake where he was attacked. Officials believe it is

the one that bit the boy, but they continued to hunt for another which is known to inhabit the lake but is reputedly shy of people.

The boy went along with his brother on a Cub Scout outing at Jacksonville Naval Air Station last Thursday and was playing in the shallows of Camp Linda Lake at a picnic ground when the alligator attacked.

Carolyn Higgins, a Cub Scout den mother, waded into the lake grabbed the boy and pulled him from the eight-foot reptile's jaws.

Mrs. Abbott credits Mrs. Higgins with saving David's leg and possibly his life.
